Project:

**Improved Cookstoves for Social Impact in Ugandan Communities**  
**1,592 tCO<sub>2</sub>e**

This project focuses on demand and communication regarding buying and owning an improved cookstove. It is especially focused on reducing cooking time, less use of charcoal and cost savings. The project also contributes to a new market where manufacturers contribute to increased sustainability. Furthermore, the project contributes to reducing poverty, better health, gender equality, more jobs and biodiversity.

Serial number: GS1-1-UG-GS447-16-2018-18826-379639-381230

**Henan Funiushan Solar Cooker Project, China**  
**240 tCO<sub>2</sub>e**

This project is located in the Henan Province, which is a suitable region for the use of solar energy. The project includes the distribution and installation of 50,000 sets of solar-powered stoves for rural households to efficiently replace fossil fuels with solar energy in everyday cooking. The project also contributes to reduced air pollution and is economically advantageous for the households.

Serial number: GS1-1-CN-GS7433-3-2020-21073-1191-1430

The projects are certified according to Gold Standard.
